Project Information

Pointe Aux Pins ASP Amendment, Mirigal NSP & East Mirigal (EM) Special District

MAY 19, 2026

LANDREX ARCADIS

BACKGROUND

What are **ASPs** and **NSPs?**

Area Structure Plans (ASPs) and **Neighbourhood Structure Plans (NSPs)** are statutory plans that guide the future growth and development for specific areas within the City. They provide direction on land use, access, major transportation corridors, and servicing for newly developing neighbourhoods.

NSPs focus on a smaller area within an **ASP** and provide the same information but include more details, such a detailed road network or specific design guidelines.

Why are we creating the Mirigal NSP?

The intent of the NSP is to is to guide the orderly development of this future urban area, including planned land uses, servicing, transportation, open spaces, and development staging, providing greater-level details than what is shown in the parent Pointe Aux Pins Area Structure Plan (ASP).

Why are we amending the Pointe Aux Pins ASP?

- Increase the efficiency of the road network
- Create more opportunities for pedestrian connections using open spaces
- Reallocate the land uses on the plan for better compatibility
- Redesignate Commercial Mixed-Use to Commercial, while still allowing a possibility for mixed-use development
- Prepare administrative amendments to remove all references to the Edmonton Metropolitan Regional Board.

Who is creating the plans?

Landrex Inc., who a the major landowner within the plan area, has retained Arcadis to amend the Pointe Aux Pins ASP, as well as create the new Mirigal NSP.

LAND USE DESIGNATIONS

What They Mean

Low Density Residential

Low Density Residential includes single-family and semi-detached (duplexes) housing forms, and aims for a density of 25 du/ha.

Low/Medium Density Residential

Low/Medium Density Residential includes rear-access townhomes, and aims for a density of 45 units/ha.

Medium Density Residential

Medium Density Residential includes townhomes, stacked townhomes, and lor-rise apartments, aiming for a density of 65 units/ha.

Medium/High Density Residential

Medium/High Density Residential can include low-rise apartments or residential mixed-use developments if within Neighbourhood Node.

Residential Mixed-Use

This designation is a vertical or horizontal mix of residential, commercial, and office uses, and aims for a density of 70 units/ha.

Neighbourhood Node

The Node is the focal point of the neighbourhood that serves as a local destination. It includes housing options, community gathering spaces, and enhanced urban design features.

Commercial

Includes a variety of commercial opportunities, such as large or medium developments, strip malls, potential mixed-use buildings, or multi-storey commercial.

Municipal Reserve (MR)

This designation includes parks (including the existing tree stand), public outdoor recreation (multi-use trails, pedestrian corridors), and schools.

LAND USE STATISTICS

Land Use	Area (ha)	% of GDA
Gross Area	**82.00**	
Natural Area (ER)	0.00	
Pipeline Right of Way	0.00	
Highway 21 Widening	2.41	
Gross Developable Area	**79.59**	**100.00%**
Non-Residential Land Use Area		
Open Space (Municipal Reserve)	**8.12**	**10.20%**
Tree Stand	2.04	2.56%
Park Sites	3.28	
School Site	2.80	3.52%
Transportation	**17.59**	**22.10%**
Arterial Roads	0.38	0.47%
Collector Roads	6.57	8.26%
Local Roads, Alleys, and Walkways	10.64	13.37%
Public Utility Lots	**5.05**	**6.35%**
Stormwater Management Facility	5.05	6.35%
Commercial Lots	**3.58**	**4.50%**
Commercial	3.58	4.50%
Total Non-Residential Area	**34.34**	**43.15%**
Net Residential Area	**45.25**	**56.85%**

Low Density Residential		% of GDA
Area (ha)	29.69	37.31%

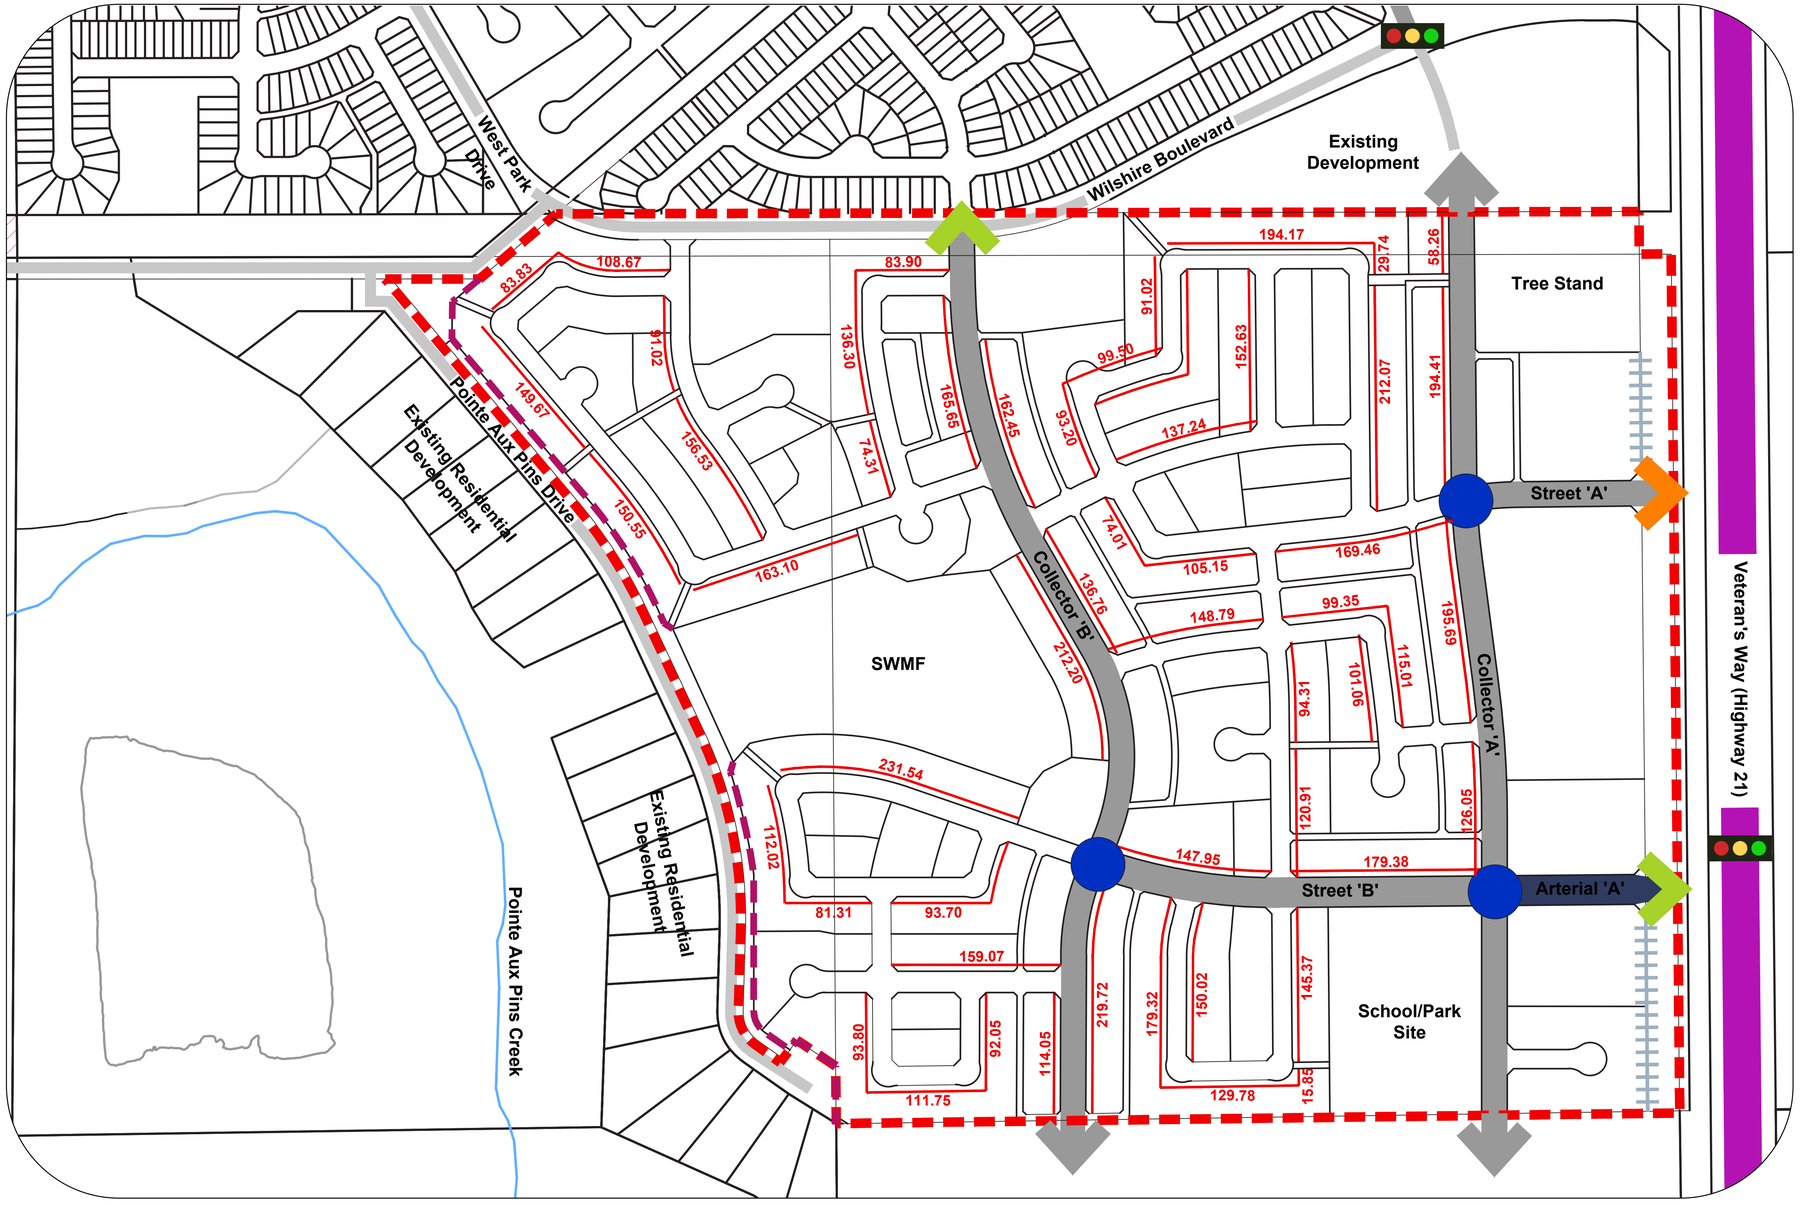
PARKS & OPEN SPACE

TRANSPORTATION

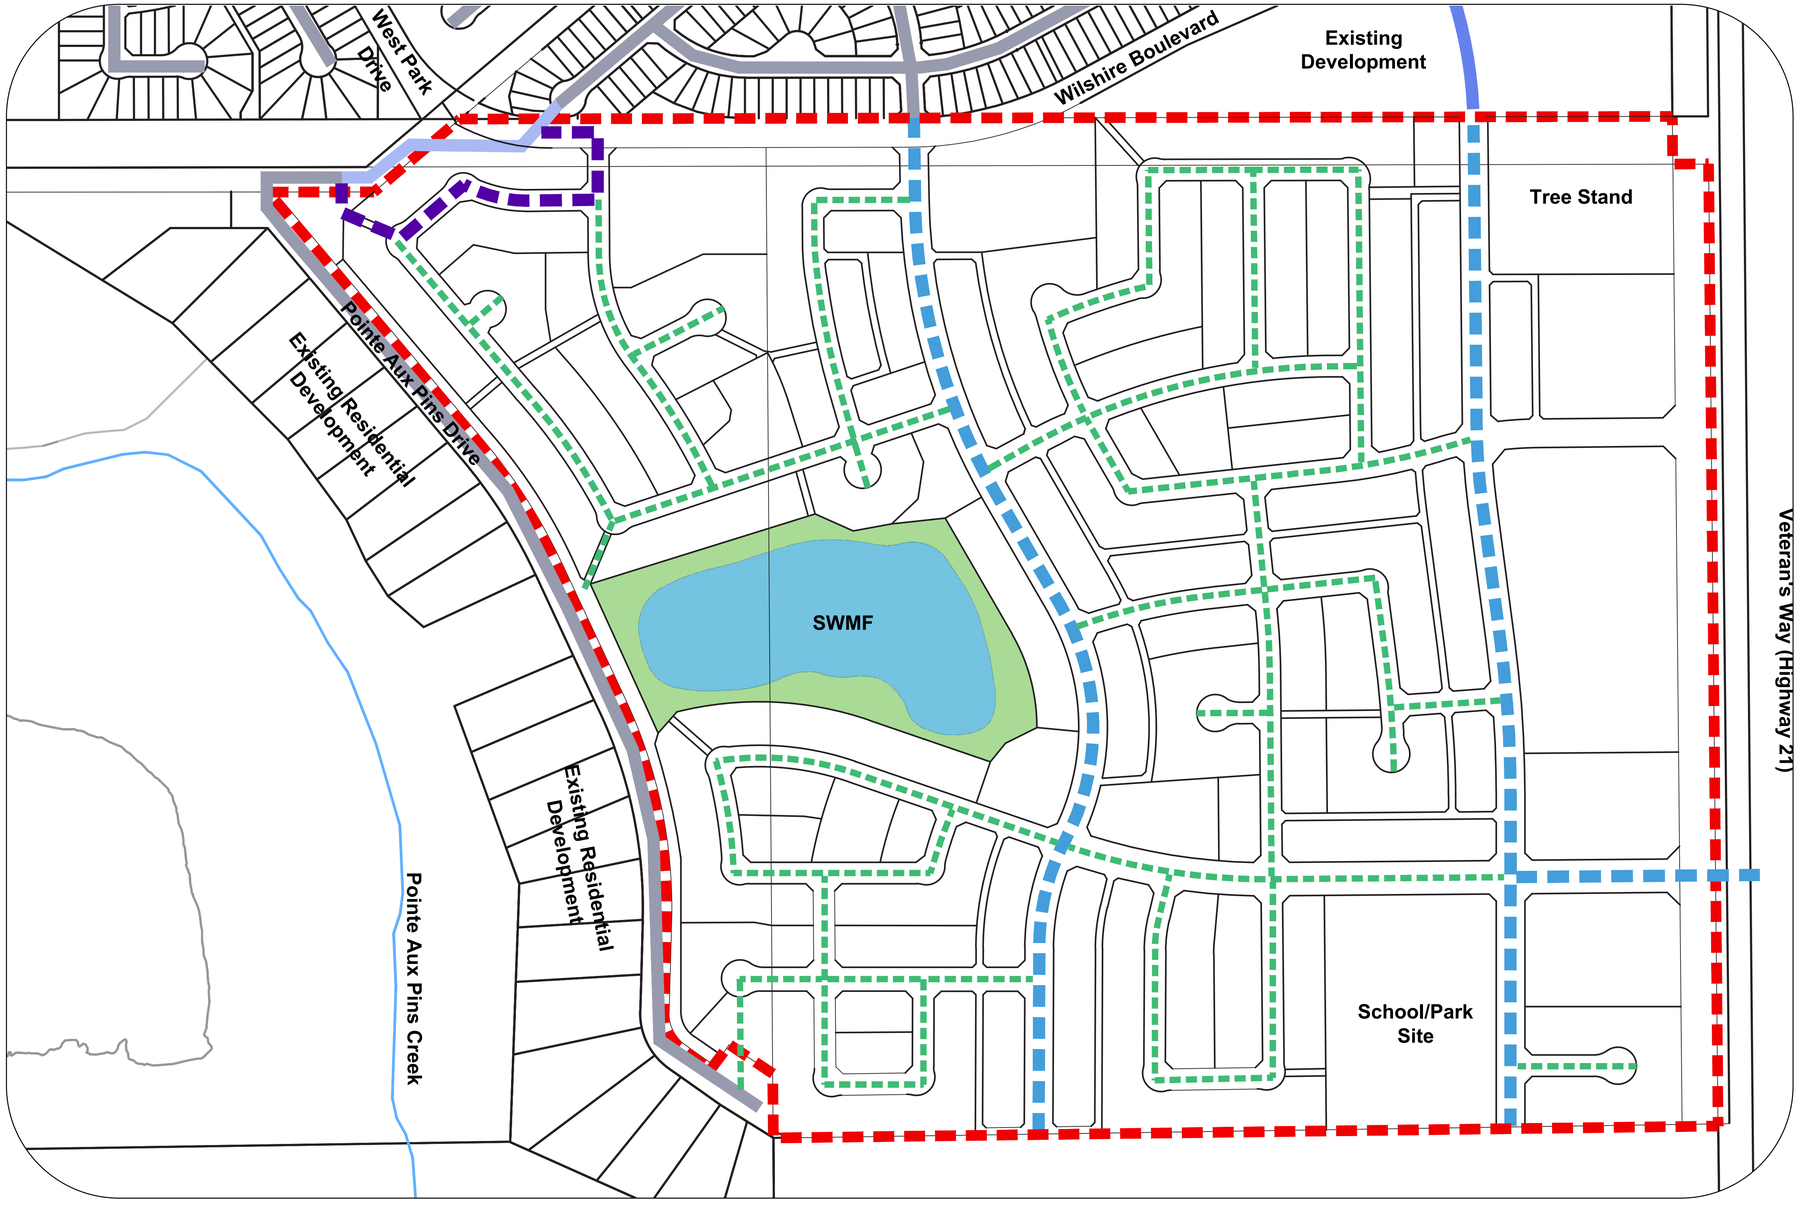


- Neighbourhood Structure Plan Boundary
- Access Barrier
- Collector Road
- Arterial Road
- Existing Road
- Veteran's Way (Hwy 21)
- 97.00 Block Lengths
- Right-in Right-out Access
- All Direction Access
- Roundabout
- Signalized Intersection

ACTIVE TRANSPORTATION

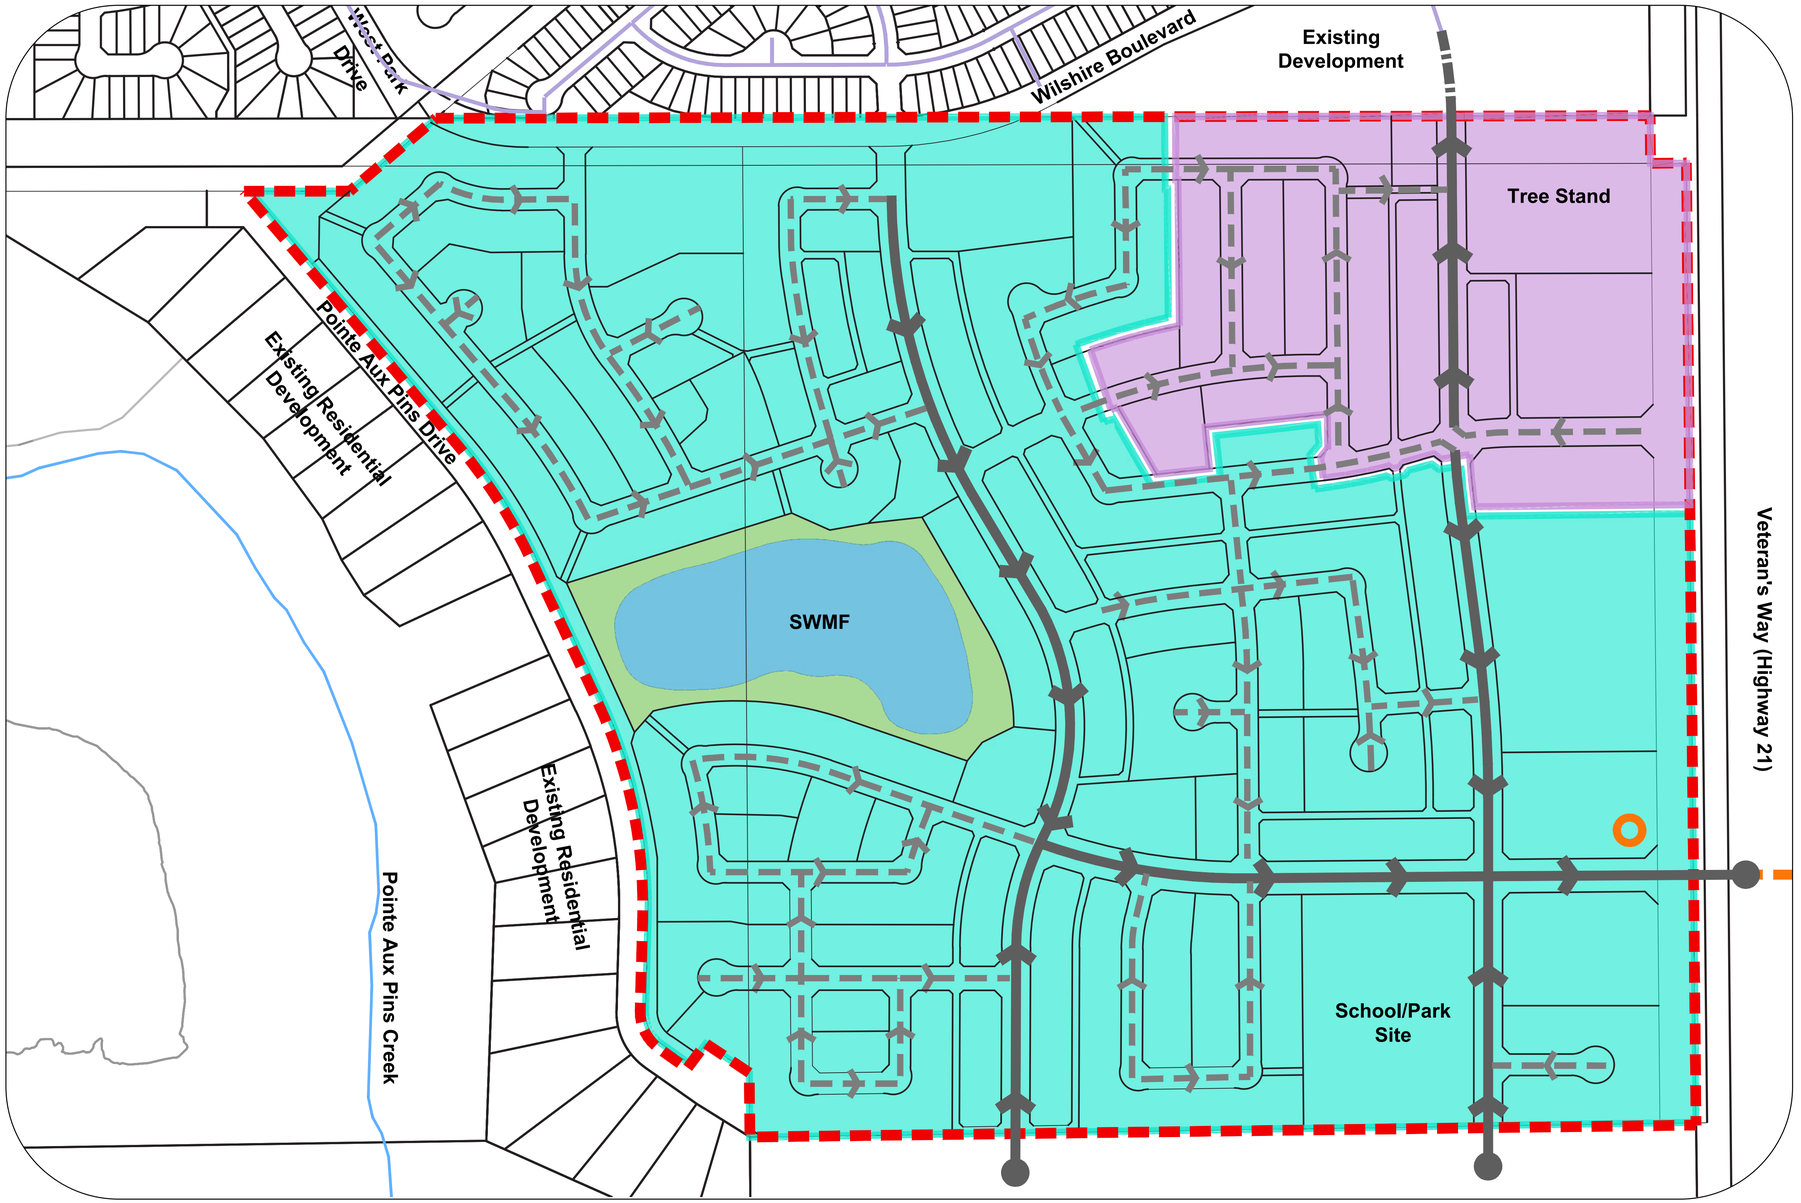
- Neighbourhood Structure Plan Boundary
- Stormwater Management Facility
- Municipal Reserve/Park/School Site
- Walkways
- Veteran's Way (Hwy 21)
- Existing Roads
- Collector Road
- Arterial Road
- Proposed Key Pedestrian Crossing Areas
- Proposed Transit Stop Locations
- Proposed Transit Route
- Access Barrier
- Existing Trails
- Right-in Right-out Access
- All Direction Access
- Roundabout
- Neighbourhood Node
- Future Proposed Below Grade Pedestrian Crossing
- Signalized Intersection

WATER SERVICING



- Neighbourhood Structure Plan Boundary
- Stormwater Management Faci
- Existing Watermain
- Existing Trickle-fill Line
- Existing Watermain 200 mm to be Removed
- Watermain 300 mm
- Water Pipe 200 mm
- Watermain 200 mm

SANITARY SERVICING



- Neighbourhood Structure Plan Boundary
- Stormwater Management Facility
- Sanitary Basin 1
- Sanitary Basin 2
- Sanitary Pipe 200 mm
- Possible Future Connection TBD at Detailed Design
- Future Connection
- Existing Sanity Service
- Sanitary Main 250 mm
- Future Gravity Main
- Lift Station

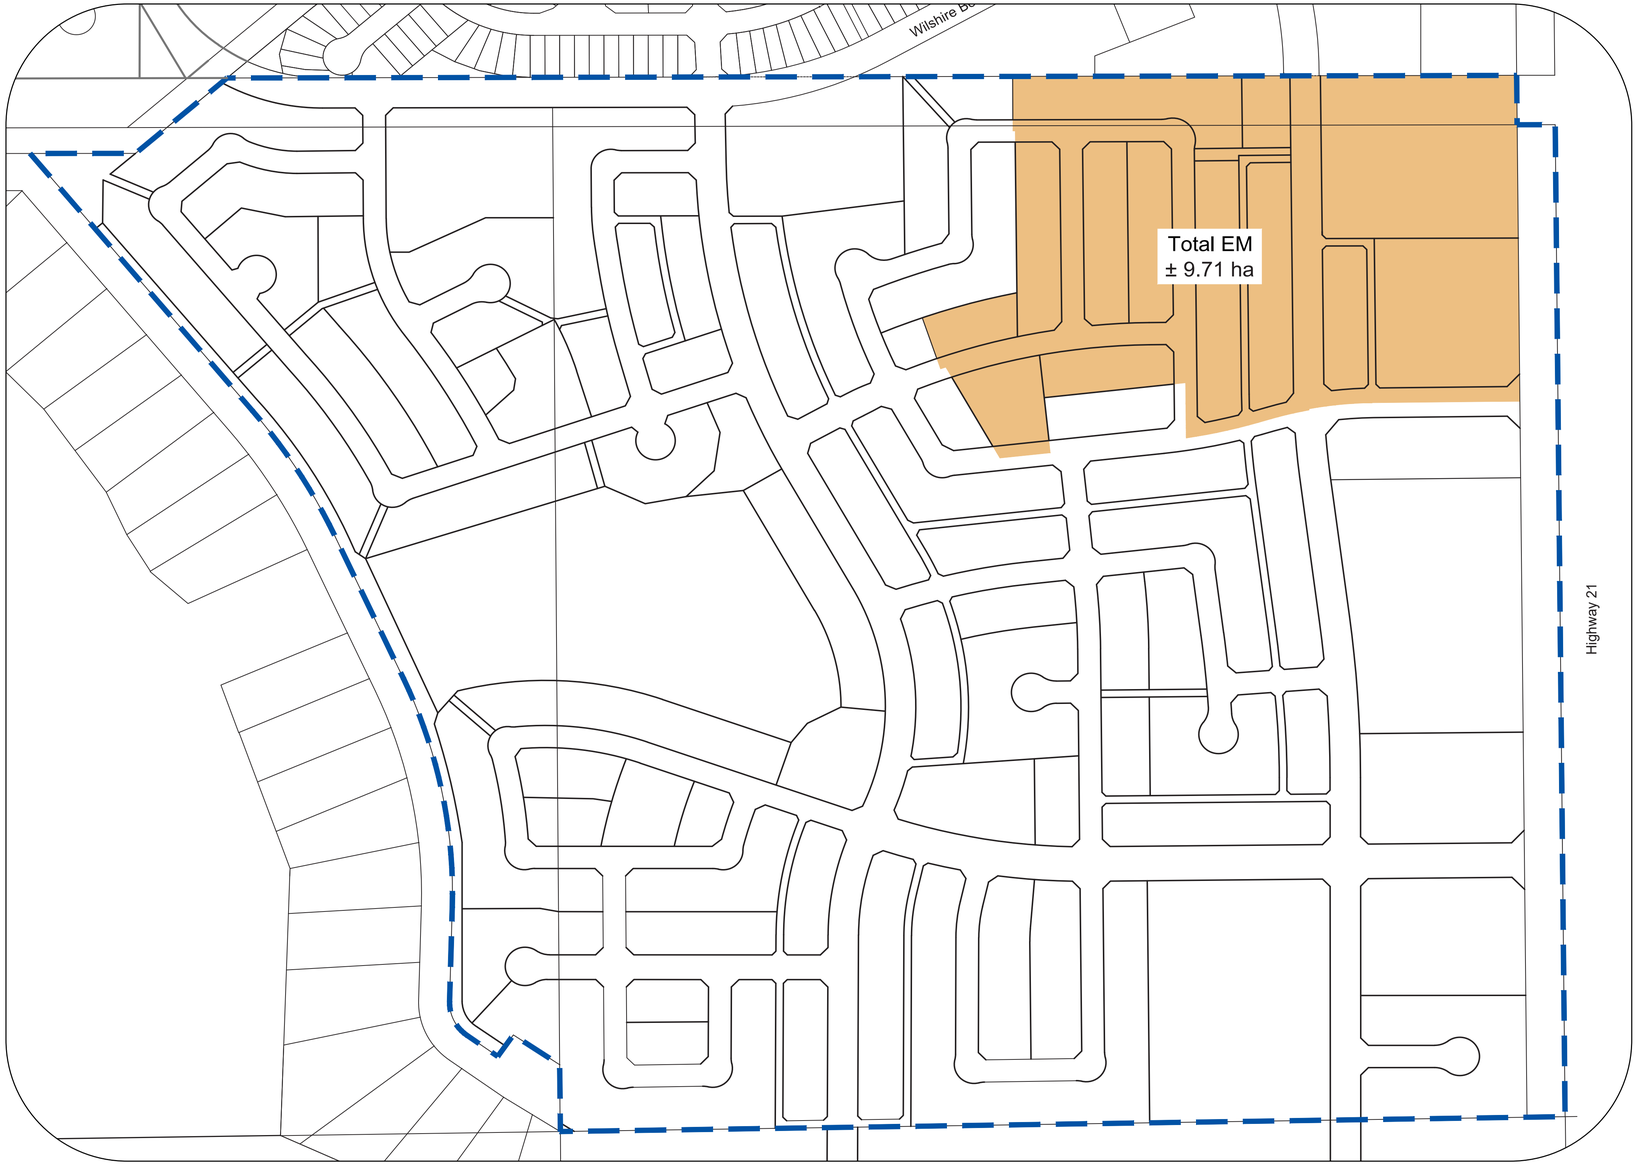
Phase Area

LANDREX ARCADIS

Re-Districting

EAST MIRIGAL (EM) SPECIAL DISTRICT



Mirigal NSP Boundary

EM Special District

LANDREX ARCADIS

Re-Districting

EAST MIRIGAL (EM) SPECIAL DISTRICT

Purpose

The intent of the East Mirigal Special District is to facilitate the development of a low and medium density residential housing and park spaces within the Mirigal NSP. Residential development will include single and semi-detached homes, as well as rowhomes.

Summary of Regulations

The district focuses on variety along a block face, including regulations on varying lot widths, building types, and varying architectural styles along a block.

The district also takes parking into consideration, by creating design and subdivision regulations that there is sufficient space for street parking along front-access parcels, as well as requiring narrower lots to be situated across from laned housing to reduce pressure on the road.

Permitted Residential Uses

- Single-Detached Housing
- Semi-Detached Housing
- Duplexes
- Multi-Attached Housing
- Apartments

Permitted Community Uses

- Schools / Parks
- Community Service Facilities
- Public Facilities
- Indoor Recreation Facilities
- Outdoor Recreation Facilities

PROJECT TIMELINE & NEXT STEPS

January 2025 — **Pointe Aux Pins ASP Adopted**

October 2025 — **Pointe Aux Pins ASP Amendment Application Submitted**

November 2025 — **Mirigal NSP + Rezoning Application Submitted**

February 2026 — **Engagement Phase #1 (Open House)**

Spring 2026 — **Engagement Phase #2**

Summer 2026 — **Public Hearing**
